

To whom it may concern –

It is my opinion that there is sufficient space on the site to provide for the required tree mitigation as shown on the plan dated 8-25-2017. The tree symbols shown represent a more mature tree than what will initially be planted, and while the trees may ultimately be wider than the symbols, they will conform to their environment. I believe there is reasonable expectation of sustainable growth and survivability for all the trees and shrubs shown on the plan.
